

Kalmar Figure Skating Club is looking for a figure skating coach

We are looking for a full-time figure skating coach starting from autumn 2023 who is passionate about figure skating and who, together with our head coach Yulia Smagina and Tindra Price, wants to develop our skaters. You should feel committed to each skier and have the ability to see each skier's opportunity for development. You should have good contact with parents and the board. You will participate in competitions, shows, camps, and other activities and arrangements if necessary. In collaboration with Yulia and Tindra, your tasks will be to plan and lead training on and off the ice. Our ambition is that everyone who thinks it is fun to practice figure skating should have opportunities for training based on their ambitions and opportunities. The figure skating club has about 450 members and conducts children, young people, and adults at different levels, from skating school to elite level. Our goal is to continue to grow and to invest in both breadth and top among our skaters. We have a good climate in the association characterized by good cohesion and respect for each other, committed parents and an active board.

Who are you?

It is desirable that you have a background as a figure skater and a great commitment with a will and drive to develop yourself and our skaters, coaches, and the association. The association's ambition is to offer all skiers, from beginners upwards, optimal opportunities for development. You understand the importance of adapting your way to the maturity and ability of the skaters. You know that health, well-being, and happiness are important parts for skaters.

The applicant should comply with the following:

- A merit is completed coach education, but it is not a requirement.
- Preferably experience in training ice skaters at different levels.
- Master the Swedish or English language in speech and writing.
- Enjoy working with people and dealing with children, teenagers, and adults.

In addition to coach education, other pedagogical education is also meritorious. Personal aptitude, commitment, ability to cooperate, pedagogical ability, and positive attitude are highly valued.

Type of employment and length of employment

We offer permanent employment full-time. The position involves evening and weekend duties. We apply for a six-month probationary period. The primary workplace will be Kalmar Sportcenter. The salary is according to the agreement, considering coach education and experience. Kalmar Figure Skating Club is a member of the Employers' Alliance.

Please contact Eva Sander at 070-754 49 89 for more information or questions.

Email your application to info@kalmarkonstakning.com

Sincerely,

Camilla Mohlin

Chairman Kalmar Figure Skating Club
